TARGETED CASE MANAGEMENT

Specialized services are provided by a case manager who is fluent in American Sign Language and is knowledgeable of Deaf Culture and Resources. Case managers provide a person-centered approach to assess, plan, refer, coordinate, and assist in helping to gain access to a variety of services.

Services occur primarily in the community, in the person's home, and virtually. Case managers will meet with the child and the parent/guardian at least once per month. Interpreters are utilized and arranged by case manager as needed.

ELIGIBILITY CRITERIA

- Child or their family are Deaf, Deafblind, or Hard of Hearing
